-Repair order-*

***The repair order has to be filled out even in cases of guarantee**

Model-No. _____ (engraved under the casing bottom)

Model name: _____ (if known)

Description of defect: _____

Please check the watch and make a calculation. I pay the cost (25,00 € + taxes) for this. In case of guarantee you do not have to carry the repair costs. By placing an order we charge the cost for the calculation against the cost for the repairing.

I place the order if the cost is not higher than

€100,00

€200,00

€300,00

(incl. shipment cost and taxes). I do without a detailed calculation. If the cost is higher than the given sum please send me a detailed calculation.

Please fill out and send back to us within 10 days (fax, e-mail, mail). I have received the repair conditions and they are part of the placed repair order.

In case of no placed order for a quotation we send your unrepaired watch back. Therefore arise one-time delivery and handling charges of €17,85 (incl. taxes) in Germany. For repair orders from other European countries €30,00 (incl. taxes). For countries outside Europe the costs will be given on request.
